

CITY UTILITIES, SPRINGFIELD

City Utilities of Springfield (CU) is a progressive, community-owned utility serving southwest Missouri with electricity, natural gas, water services to 106,000 customers.

Rolta is using Miner & Miner ArcFM and ESRI ArcGIS and its production environment to integrate and migrate/convert the current data in AutoCAD Map and other sources to implement a new GIS system.

- Migrate CU existing electric, gas, water and landbase GIS (AutoCAD Map) to ArcFM based ESRI Geodatabase model.
- Ensure data integrity and usability in ArcGIS/ArcFM
- Effectively migrate the existing annotations and dimensions
- Validate connectivity and tractability
- Build critical attributes from surrounding annotations/labels.

About Rolta

Rolta's knowledge of Geospatial Information Systems is based on our total commitment to quality and the achievement of excellence in the products and services we offer to our clients. Our organization has been globally recognized for its success in adding value to our customers and partner's businesses.

Through our investment in people, technology and infrastructure, Rolta has aggressively met emerging opportunities and enjoyed sustained financial growth. Rolta integrates its diverse knowledge and strategic alliances into innovative solutions that empower customers to address business challenges decisively and successfully.
