Contact Us

We are eager to assist you with your geospatial needs. Give us a call at 678-942-5000 or email us at gis@roltaus.com to find out how we can help you acquire an accurate, customized mapping solution.

About Rolta

Rolta is a multinational leading provider and developer of state-of-the-art and proven Geospatial solutions and services. Our specialty is providing knowledge-based IT solutions and services for mapping and GIS, lifecycle data management, e-Business and discrete and process manufacturing. With an expansive, global infrastructure, we provide access to more than 3,000 seasoned engineers and technical professionals who have executed a large number of mission-critical projects world-wide. Rolta has been recognized globally for its achievements including being consistently selected by Forbes Global as one of the "200 Best Companies Under a Billion". Our financial strength and leading alliances is a testament to the services Rolta provides its clients.

Leading the World in Geospatial Services

No One Knows Geospatial Services Like Rolta.

Rolta has been a worldwide leader in geospatial solutions and services since 1982. The firm's reputation as an innovator is well deserved. Our development and use of more efficient processes and proven, cutting-edge technologies have helped us set the industry standards in project productivity. Our first-class infrastructure, combined with outstanding technical and management expertise, allows us to continually fine-tune our process. This means that our clients benefit not only from the vision that started it all, but also from one of the most up-to-date knowledge bases in the world.

If you are planning a GIS project, consider the geospatial leader.

Your One Source for the Full-Range of Geospatial Services

We Apply Our Knowledge and Experience to Assure Quality and Accuracy

- ◆ Our experienced technical professionals have performed scores of mission-critical projects of all sizes worldwide.
- ◆ We provide comprehensive, end-to-end geospatial project components – our clients receive everything they need from one experienced source.
- ◆ We focus on quality, reliability and timeliness so our clients receive solutions that work.
- ◆ Our global communications network offers clients enhanced project productivity through the use of worldwide production facilities.
- ◆ Our knowledge and experience with virtually every major geospatial software platform enhance our ability to tailor the solution to the client's needs.
- ◆ Rolta has achieved international quality certifications such as ISO/IEC 20000-1:2005, BS 15000, BS 7799, ISO 9001:2000, and SEI CMM Level 5.
- ◆ Rolta's receipt of a General Services Administration Schedule Contract streamlines our work for federal government agencies.

▶ *Rolta creates high quality maps regardless of the location. Our maps of the lunar surface prove that distance does not matter.*

Who Do We Work For? Some of the Most Demanding Organizations – Like Yours

Rolta has assisted some of the largest and best known telephone, electric, gas, and water utilities, as well as many government agencies, design, implement, and maintain their geospatial systems and data. Our client list reads like a *Who's Who* of industry and government and includes such names as:

City Utilities of Springfield	NSTAR
City of San Jose	Peoples Energy
CPS Energy of San Antonio	Piedmont Natural Gas
Greenville Utilities Commission	Qwest Communications
Hydro Ottawa	TELUS Communications
Louisville Gas & Electric	Toronto Hydro
Montana-Dakota Utilities	Southern Company
National Grid USA	Verizon
NiSource	and many more.

We would like the chance to add your organization to our list of satisfied geospatial clientele.

Leverage Our Partnerships for Reliable, Tailored Solutions

Our technology and business partners include major global leading enterprises. Working with geospatial technology firms such as:

Autodesk	Intergraph
Bentley	Miner & Miner
ESRI	Orion
GE	Telcordia

Our broad technology partners are:

CA	Microsoft
IBM	Oracle

We are able to provide our clients turnkey geospatial systems built around the most advanced and reliable technology. In conjunction with our partners, Rolta provides end-to-end solutions and a full range of professional services tailored to your organization's unique environment and requirements.
