

# SOA Jumpstart™

## Gaining Service Oriented Architecture (SOA) competencies through guided value delivery.

SOA Jumpstart delivers results from service oriented implementations quickly. It leads clients through design, implementation and rollout of web services within days. SOA Jumpstart allows IT staff to make changes seamlessly and “on the fly” during the process, in response to frequent, light-weight end user feedback and interaction.

- ▶ Quick prototyping integrations and new web applications, while exposing and integrating business processes within existing ERP and legacy systems.
- ▶ Enables rapid mock-up of web pages to display to business users for functional requirements validation.

### Business Challenge

The accelerated rate of change in business challenges even the most resilient organizations today. Businesses need practical, reliable and fast moving capabilities to tackle the risks and opportunities exposed by rapidly increasing change. SOA promises to deliver infrastructure that facilitates upside in this chaotic business environment. But traditional SOA implementations are taking too long to show returns and are being abandoned due to budget constraints.

The Rolta TUSC methodology focuses on rapid delivery of agile, service-oriented solutions, with measurable results and business-aligned outcomes. It follows agile development and deployment cycles delivering returns early and often.

### TYPICAL PROJECT DURATION

A typical SOA Today project requires two to four weeks on site utilizing a fully credentialed SOA Architect consultant.

### JUMPSTART PROJECT REQUIREMENTS

Project requirements are basic and include a consultant work area with network connectivity and access to the individuals the consultant needs to work with.

### SOA JUMPSTART DELIVERS ASSETS YOU CAN USE IMMEDIATELY

SOA Jumpstart solutions are 100% standards-based and built upon the most current technologies for a longer maturity life cycle.

### SOA Jumpstart delivers:

- ▶ Three to five web services.
- ▶ One web application that contains a web page demonstrating the consumption and display of the deployed services.
- ▶ One or two deployed and functioning Integration Patterns based upon composite services (e.g., Composite Application, Federated Query, Application-to-Application integration, BPM Flow or Activity-to-Service mapping).
- ▶ Jumpstart design documentation that fully documents all aspects of the work completed.

- ▶ Agile, Service-Oriented Solutions
- ▶ Rapid Development and Deployment Cycles
- ▶ Minimum Investment and Fewer Dedicated Resources

## SERVICE ORIENTED ARCHITECTURE THROUGH GUIDED VALUE DELIVERY

# SOA Jumpstart™

### THE SMART SOLUTION FOR YOUR ENTIRE TEAM

SOA Jumpstart delivers tangible benefits to all levels of SOA expertise including application and system architects and developers, network and operating system managers and application systems engineers.

#### New to SOA

- ▶ Begin leveraging modern technologies immediately including web services, XML, WSDL, and SOAP. SOA Jumpstart gives you the advantage of a conduit to newer technologies.

#### Seasoned SOA Veterans

- ▶ With SOA Jumpstart, experienced SOA users benefit from the optimum use of modern technologies already accepted by the industry. Now it's easy to comply with the latest Internet standards considered modern and mature within the technology life cycle.

#### Oracle Users

- ▶ Oracle users can improve the functionality and scalability of Oracle Application Express. Using iPerspective™, Oracle users can expose non-Oracle databases to Oracle Express.

### REAL-TIME RESPONSE TO CHANGING BUSINESS NEEDS

SOA is real and it is real today. Don't get stuck in the quagmire of long-winded planning roadmaps, never-ending process design and re-design, and bloated governance strategies.

SOA Jumpstart expedites learning through hands-on training while creating valuable deliverables that will show immediate return on investment. SOA Jumpstart walks you through the process of using Rapid Business Delivery to improve business agility and drive down costs. We partner with you to provide this value by creating reusable business services that can be easily consumed and leveraged within a multitude of existing IT systems and business processes.

SOA Jumpstart enables IT departments to become the most effective strategic partner within the organization. By providing a competitive advantage through innovative IT solutions that are practical, SOA Jumpstart delivers rapidly with minimum investment and fewer dedicated resources.

SOA Jumpstart pilot projects demonstrate immediate value and illustrate success.

#### Rolta SOA Center of Excellence

SOA Center of Excellence is a division of Rolta and is an internationally recognized leader in information technology solutions, providing integrated functional and technical solutions since 1988. Leveraging this in depth expertise, SOA Center of Excellence is leading the industry in providing a comprehensive suite of easy-to-use software solutions that enable access to an array of disparate data sources. An Oracle Certified Advantage Partner in both technology and applications, SOA Center of Excellence takes pride in helping companies develop successful business solutions through understanding and use of new technology tools.
